MANIKANTA TEJA

.NET FULL STACK DEVELOPER | C# | ASP.NET CORE | REACT.JS | NODE.JS | AZURE

Hyderabad, India | +91 8555948249 | manikantatejageddada249@gmail.com

LinkedIn: linkedin.com/in/manikantateja-dotnet

PROFESSIONAL SUMMARY

.NET Full Stack Developer with 3+ years of experience developing, maintaining, and supporting enterprise web and desktop applications using C#, ASP.NET Core, MVC, REST APIs, SQL Server, and React.js. Experienced in backend development, database query optimization, authentication, authorization, API integrations, and IIS deployments. Contributed to forensic laboratory, inventory management, dispatch, and employee operations solutions, with ongoing full-stack fintech development using React.js, Node.js, TypeScript, and PostgreSQL.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL

Backend: .NET 6, ASP.NET Core, ASP.NET MVC, Web API, Node.js, Express.js, REST APIs, Microservices

Frontend / Desktop: React.js, HTML, CSS, jQuery, WPF

Databases / Data Access: SQL Server, PostgreSQL, MongoDB, Entity Framework, NHibernate, ADO.NET, Prisma ORM

Cloud / Security: Azure Blob Storage, Azure Key Vault, Authentication, Authorization, Role-Based Access Control (RBAC)

Integrations: Razorpay Payment Gateway, WebSocket, Third-Party APIs

Tools / Delivery: Git, GitHub, Azure DevOps, Visual Studio, VS Code, IIS, CI/CD, Agile, Swagger

AI Development Tools: Cursor, Claude Code, OpenAI Codex, GitHub Copilot

PROFESSIONAL EXPERIENCE

.NET Developer | Progience Technologies | Hyderabad, India | May 2023 – Present

- Develop and maintain enterprise web and desktop applications using C#, ASP.NET Core/MVC, Web API, and WPF for laboratory, inventory, and dispatch workflows.
- Build backend business logic, REST API integrations, data access layers, and input validation to support business operations.
- Optimize SQL Server and NHibernate queries and troubleshoot application defects to improve responsiveness and reliability.
- Contribute to authentication, authorization, microservices-based services, and Azure Blob Storage and Key Vault integrations.
- Collaborate with cross-functional teams on code reviews, QA, UAT, CI/CD activities, IIS deployments, and ongoing enhancements.

PROJECT EXPERIENCE

CIMS | Consumable Inventory Management System

Technologies: .NET 6, ASP.NET MVC, C#, NHibernate, SQL Server, IIS

- Developed and maintained chemical inventory, consumable usage logging, and quality-control workflows for forensic laboratories.
- Implemented backend validation and business logic, optimized NHibernate queries, and supported QA, UAT, and IIS deployments.

LIMS-plus DNA | Forensic DNA Laboratory Management

Technologies: Browser-based enterprise application (specific stack not provided)

- Supported forensic DNA sample management and tracking across casework and databank processing workflows.
- Contributed to application maintenance and workflow enhancements supporting laboratory sample processing.

CAD 8 | Computer-Aided Dispatch

Technologies: C#, .NET 10, WPF

- Developed and maintained desktop functionality for incident classification, department assignment, and dispatch operations.
- Enhanced WPF user-interface behavior, data validation, and integrations to support reliable dispatch workflows.

Employee Project Management System | Employee Operations

Technologies: ASP.NET MVC, C#, NHibernate, SQL Server; React.js, TypeScript, Node.js, Express.js, Prisma ORM, PostgreSQL

- Initially developed employee records, timesheets, task assignments, leave requests, and performance tracking using ASP.NET MVC, NHibernate, and SQL Server.
- Later migrated the application to React.js and TypeScript with Node.js/Express.js APIs, Prisma ORM, and PostgreSQL.

Fintech Project | Product Engineering — ONGOING

Technologies: React.js, Node.js, Express.js, TypeScript, PostgreSQL, Prisma ORM, Razorpay, WebSocket, Azure Blob Storage, Azure Key Vault, Third-Party APIs

- Building React.js frontend components and Node.js/Express.js REST APIs for an ongoing fintech application.
- Working on PostgreSQL data models, Prisma schema, authentication, authorization, and Razorpay payment integration.
- Integrating Azure Blob Storage, Azure Key Vault, and third-party APIs; implementing WebSocket-based real-time communication and payment-status updates.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

Swarnandhara College of Engineering and Technology | Narsapuram, Andhra Pradesh | 2019 – 2023

LANGUAGES

English, Telugu
